SUN BEAMS

By WALTER M. BARRETT

The bulletin board on the Masonic Hall bears a strange device. Under the heading "Final Results of Queen Contest," a relic of the Fourth of July celebration, is a tabulation of the votes cast at Precinct No. 2 in the recent primary. The candiates, we hope, will not get ideas they won a queen contest.

There is something else you must have noticed and that is the filth that adorns the main street. No doubt the Sanitary Board is saving for that incinerator or repairs to the sewer lines or something. The last street cleaning cost about $30, we are informed, a sizeable sum.

Speaking of noticing things, have you noticed the change in the weather? Fall is upon us in all its grinning glory, fortelling the winter to come. With the approach of the cold weather, summer visitors and vacationists are trekking homeward by the score and soon we will be depending upon one another to tide us over the bleak months. By buying at home, we can keep Truckee a good lively town despite the loss of our seasonal guests. If we make this a trade-at-home-winter, we will emerge in the spring a bigger and better town and with a great deal of self satisfaction in a good program well conducted.

By this time next week the woods will be filled with red-capped deer hunters and from all available reports many hunters will bag limits as deer are plentiful throughout the region. It should be remembered, however, that everything that moves after September 15 is not deer and a lot of caution must be exercised if accidents are to be prevented. It is much better to lose the finest buck that ever came through the brush than to shoot without knowing just where the deadly bullet will land. There are apt to be accidents, but its up to you to see that they are not of your making.

CARVILLE WINS IN NEVADA CONTEST AFTER HOT FIGHT

E. P. Carville, who was replaced recently as U.S. Attorney as a McCarran choice, took the lead over H. Harmon for the Democratic gubernatorial nomination in Nevada. Harmon carried the endorsement of the incumbent governor Richard Kirman, who did not seek reelection.

In the Senate race incumbent P. A. "Pat" McCarran took a decisive lead over his 100% New Deal opponents, Albert Hilliard and Dr. J. D. Worden. McCarran had opposed the court reform and reorganization bills and was supposed to be a New Deal 'purgee.'

In the only state-wide G. O. P. contest, that for governor, John A. Fulton won with 4,381 votes to Samuel C. Durkee's 3,498. Tasker L. Oddie, who McCarran succeeded to the senate post, was unopposed for the Republican nomination for the U.S. Senate.

O. E. S. MEMBERS ARE FETED AT PARTY; PROGRAM GIVEN

The following committee entertained about 50 members and guests of Truckee Chapter No. 116, O. E. S. on Tuesday evening: H. I. Snider, C. B. White, G. E. Hofmann, D. W Bowen, Lloyd Green and Albert Quinches. Misses Alice and Shirley Beger of Reno presented vocal numbers accompanied by Mrs. Dora Stuntbeck of Verdi. Mrs. Grace Holcomb of Reno assisted by the Misses Berger gave a comic skit and arranged the enjoyable games. Jess Rauphs of Verdi was heard in a saxophone solo accompanied by Mrs. Stuntebeck. An orchestra consisting of M. Nunez and A. Cortez of Norden and A. Marin and M. Quioz of Truckee played several selections.

A delicious supper followed the program and the committee and participants in the program were given a vote of thanks.

Two Drunks Are Jailed

Francis Norris, 32, and his brother, Arthur Norris, 27, both of Reno were taken to the Nevada County jail Tuesday by Deputy Sheriff N. F. Dolley after their conviction here on a charge of violating the county's sobriety ordinance. They were sentenced to 30 days in jail.

The men were arrested by Sergeant C. E. McKeen in their car after the machine had been parked on the highway and both men had fallen asleep. They were tried before Justice of the Peace C. E. Smith.

Unveiling Fete At Hobart Mills Attracts Crowd

Founder of Company Given Honor By Former Employes

FETE LAUDS HOBART

"Hobart Family" Gathers In Reunion As Program Is Held

By Mrs. Frank Wilson

The ceremony at the monument erection at Hobart Mills honoring the founder, the management and employes on Monday afternoon was well attended by old time residents of the once famous lumber town. More than 200 were present from various places, most of them former employes of the town.

From the widespread industrial plants and business centers were gathered the heirs, managers and employees of the Hobart Estate company at Hobart Mills for the dedication. All were there to honor Walter Scott Hobart and the employes who overcame all obstacles in making the company name honored from coast to coast.

While the beautiful granite monument is a credit to any community, it is only a symbol of the greater monument of traditions of loyalties and friendships that will last as long as the lumbering industry exists.

G. D. Oliver the former manager opened the ceremony with a short talk of introducion, introducing A. Crawford Green, president of the Hobart company. Green stated that it was no place for oratory but made a talk that won commendation from everyone who heard him. While he gave a history of the company and honored all those who made it a success, he won the hearts of the hearers when he spoke so feelingly of the part played by Mrs. George D. Oliver in the Hobart community for the many years that she made her home there. Due to illness, Mrs. Oliver was unable to be present but all were impressed by the tribute paid her by Mr. Green.

The monument was unveiled by Charles Baldwin, one of the grandsons of Mr. Hobart, who took an active part in designing this monument.

The stone is a beautiful shaft of granite with a bronze plate imbedded in its face. At the top of the plate are four engravings of old and familiar scene of the Hobart Lumber industries and underneath is the following inscription:

"This monument marks the townsite of Hobart Mills, California. A logging and lumber enterprise of sixty years life in the Sierra Nevada Mountains. It commemorates and honors its founder Walter Scott Hobart—1839—1892 and whose loyalty, industry and ability made its successful operation possible. Erected MCMXXXVIII by the decendents of the founder."

The ceremony lasted only a short time but it was hours before the gathering scattered. Friends greeted friends as members of their own family until everyone attending the ceremony could readily see that the title "Hobart Family" is a real and not a fancied tribute.

Success Marks Labor Day In Truckee Despite Fund Shortage

Success marked Truckee's Labor Day celebration.

More than 1200 local and visiting union workmen, representatives of the CIO and AF of L and their auxiliaries paraded the main street during the morning and enjoyed the barbecue, athletic contests and talks held at the Winter Sports grounds during the afternoon. Floats and cars added to the strength of the parade and many banners were displayed designating the various units.

The celebration attracted scores of visitors who came from Westwood, Nevada City and other surrounding centers.

Success for the affair may be given James P. Miller, general chairman, who arranged the program and provided for the other features.

The barbecue was prepared under the direction of Mike Callizo, assisted by members of the Local No. 402 and Auxiliary No. 48.

A total of 32 CCC boys, who participated in the boxing contests under Miller and V. E. Langley, were the guests of President Red Adams at the barbecue.

Hundreds took advantage of the fine barbecued meat provided at the scene of the parade and prepared to a queen's taste.

The celebration followed a dance at the CIO hall on Saturday night and throughout Labor Day nothing but peace and harmony reigned.

"Our only regret," Miller declared, "Is the fact we have no surplus to turn over to the Chamber of Commerce. The affair put the local union in the 'red'. "

ADMISSION DAY

California celebrates her birthday with eighty-eight shining candles this week. Far from being like a toddling octogenarian on September 9, the Golden State is still a youngster rich in resources, strong in her determination to fulfill scarceely tpped potentialities, proud of her position of leadership among the great states of the West.

If present evidence yields any clues, California has chapters of high significance yet o write into annals of American history. As the 1940's rapidly approach us, her importance as a strategic outpost of the American conainent fronting the oceanic empire of the Pacific, steadily multiples.

But California has always been an important history-maker from the time the first Spanish caravels skirted its thousand mile shoreline in the sixteenth century. The jealousy sought prize of world powers, the flags of five natioins——Spain, Russia, England, Mexico and Brazil——set their seals of sovereignty upon this land before the Flag o fthe Republic, and later the Stars and Bars, claimed California for America's own.

In that year of 1850, the state could boast a population of scarcely 90,000, but its history since then shows a prodigious growth in population, and in the multiplication of its wealth as traders, merchants, and enterprisers with vision, erected upon this frontier a thriving empire.

The task of empire-building is far from done. In honoring her Eighty-eighth birthday, California celebrates the fact that she is only eighty-eight years young with many ambitious tasks yet to be undertaken.

And to the State of their choice, six million Californians extend on this occasion a hearty "Many happy returns of the day!"

YOU CAN REGISTER!

Next to the last barrier in California's political steeplechase has been hurdled to the accompaniement of some startling upsets.

With less than ten weeks left before the remaining contenders thunder across the finish line, the citizens who failed to participate in last week's primary should take a timely reminder form this fact:

It is NOT too late to register for the November 8 eletion! You have until September 29 to make that brief but highly important visit to the office of your county or city clerk.

Good citizenship dictates that course. Self-interest demands that minimum of concern for the proper choice of the men and measures that will affect the welfare of the state and the livelihood of us all. Seldom has the concern been more imperitive than it now is.

It is hoped that with proper and effective advertising Tahoe may be enriched materially by the tourist traffic which is anticipated from the east and middle west Billboards, news papers and radio will be utilized in spreading the word.

Plans will also be made for presentation of data at a hearing on September 28 in Reno before Col. L. B. Chambers, head of the U. S. Engineers, to determine if the Truckee River and Lake Tahoe should be entitled to flood control funds. Riparian right owners on the Truckee believe that a plan could be worked out so that another reservoir could be built near Boca to hold from 125,000 to 150. 000 acre feet, If this is aproved Tahoe could be lowered one foot from the existing level of 6229.1. This would remove fllod possibilities. Resort owners calim that the present level has covered 90 per cent of the beaches.

Following the meeting on September 12 Frank Globin will be host to his visitors at a barbeque. District Attorneys Lowell Sparks of Placer County and Henry Lyon of El Dorado County have been invited to attend as have been Col. A. M. Barton, chairman of the Lake Tahoe conference committee, which is made up of George Devore, Thomas King and A. L. Haight from Nevada and Henry Lyon and Henry Droste of Tahoe. V. S. McClatchy, deceased, was the third Tahoe member.

CHANGE IN MAILING SCHEDULE PROTESTED

TAHOE CITY, Sept. 8—Tahoe Tav-Tavern closed its doors on Tuesday morning after an almost normal season despite the late opening and cool weather. The Casino showed "Gold Is Where You Find It" to a packed hopse on the last night.

Richardson's wil be open until November 1, according to reports. Brockway and State Line wil close September 11. No dates have been set for the other resorts.

Announcement made here last week by the Greyhound company that winter mail after September 12 would leave Tahoe City post office at 1 p.m. instead of the usual 4:30 p.m., was received with numerous protests. Post master Janet Watson has advised San Francisco postal authorities of the proposed change and its unpopular reception here and it is believed at this time that it will not be permitted. The postmaster declared that an arrangement like that would mean outgoing mail coming in on the boat from lake ports around 3:30 would have to be held over until the next day, which could not be considered an improvement in mail service.

"The lending policy of Bank *of* America is to provide the soundest type of credit best suited to the need of every individual and of every established business no matter how large or small. If any man or woman of good character and proved ability requires money for any worthy purpose—for business or for personal uses, no matter how specialized the need, Bank of America has, or will endeavor to provide, the type of credit that will be most helpful."

A. P. Giannini
Chairman of the Board of Directors

Bank of America has always made sound capital loans to large and small businesses to the maximum amount permitted by government banking regulations. Now Bank of America is pleased to be able to offer, through its 493 California-wide branches, a new, more liberalized lending service.

LOANS FOR SMALL BUSINESS
Small businesses may be generally divided into two classes—retailers and manufacturers. Bank of America has a special loan plan designed to meet the needs of both. The most common need of the small manufacturer is for working capital and capital for plant improvements. The retailer's problem is primarily one of ready cash to carry more receivables and a sufficient inventory. The manufacturer may avail himself of both the accounts receivable plan and the small capital loan plan outlined below. The retailer's principal problem may be solved by use of the small capital loan plan or a combination of this plan and FHA financing which, under Title I, permits modernization of property, the installation of new store fronts, fixtures, and similar improvements. Small capital loans for either retailers or manufacturers are available only to concerns which have been established for at least one year. For loans over $1000 a concern must have been established for a longer period. Loans may be made with or without security or endorsement, depending upon the amount and maturity of the loan. Loans of this type, however, cannot be made for the purpose of starting new ventures.

LONG TERM LOANS for *Commercial* or *Industrial* enterprises
Bank of America has a convenient method of making amortized time loans in bond or note form to business and industry. This type of loan is particularly well adapted to the concern desiring to expand its operations as well as those desiring to refinance existing obligations.

TERM LOANS FOR SMALL BUSINESS

Amount of Loan Desired	*Maximum Repayment Period*	*Minimum Annual Net Income Requirement**
$ 500	1 Year	$ 2,500
$ 500 - $2,000	2 Years	$ 5,000
$2,001 - $3,000	3 Years	$ 5,000
$3,001 - $5,000	5 Years	$10,000

*The term Minimum Annual Net Income Requirement means the net cash income of the business before depreciation and owner's withdrawals.

ACCOUNTS RECEIVABLE FINANCING
Flexible working capital in any amount for manufacturers, wholesalers, jobbers
Bank of America's plan of financing accounts receivable is designed to meet the working capital needs of manufacturers, wholesalers, jobbers. Debtors are not notified and there is no interruption of regular routine. If you are not now discounting, you can free the cash you have invested in receivables and provide flexible working capital for all your requirements at a profit, and at the same time insure adequate capital when sales expand. Loans for capital purposes are also available to manufacturers, wholesalers, jobbers.

COMMERCIAL LOANS and lines of credit are available to any business with satisfactory credit. Bank of America's commercial loan department offers many exclusive features of service.

COMMODITY AND WAREHOUSE LOANS may be arranged through Bank of America on commodities and many types of inventory stored in public or field warehouses. This plan is especially attractive to concerns which must carry large stocks of raw materials.

There is a Bank of America loan for every constructive need. . . . Inquire at your neighborhood branch.

IDAHO HAS STRINGENT RELIEF POLICY WHICH KEEPS OUT MIGRANTS

By MAX C. FUNKE
Managing Editor, Boise Capital News

BOISE, Idaho, Sept. 8— Through widespread publicity, combined with warning signs at each of her border "ports of entry", Idaho today has cut to the minimum the problem of indigent migrants invading the state to become relief burdens.

A stern legislature, enacting the socia l security law, prevented the expenditure of relief funds on those who leave eastern, midwestern and southern homes, penniless, to settle on Idaho soil. There is no provision in the Idaho code whereby assistance can be given such settlers.

But this legislation would have had little effect in turning away indigent migrants. Investigation revealed that migrants coming into Idaho did not knwo the state made no provision for the care of transients.

So, at each border entry of a major highway, huge signs were erected bearing the following inscription:

"NOTICE: No Relief Funds Available in Idaho to Non-Residents."

Within a short time squatter camps were reserted, shanty towns disappeared, and only a few hangers-on remained to eke out an existence as best they could.

The signs were erected soon after the drought struck the middle west—and just in time! They halted and turned back thousands of cars as the exodus from the dust bowl began.

According to Albert J. Lee, state relief administrator, the "quarantine" was effective for three years. Now, however, a few indigent migrants who hung on long enough to establish residence, are beginning to appear on relief rolls in small numbers.

The legislature, at the behest of taxpayers concerned with mounting relief costs, established a one-year residence requirement for relief eligibility. A movement is under way now to raise the requirements to 3 years and such a bill will be introduced in the legislature in January.

"We have only one means of taking care of desperate cases," Lee said "The Federal Commodities Corporation makes it possible to grant needy cases daily rations of commodities. Financial aid must be provided by county commissioners and city welfare agencies."

"In most cases, the latter refuse to take indigent cases under any circumstances othre than their agreement to leave the state. Funds are supplied to them to get them safely across the state."

"If one of these cases returns, he cannot receive any aid whatsoever."

News of this situation travels rapidly, Lee said. Consequently word has spread over the country that "Idaho is plenty tough" and "you run a risk of starving in Idaho if you move in without funds."

The signs are still up——and kept brightly painted for all to see. About the only change necessary to continue the state's record of low indigent relief costs will be an extension of residence requirements—and Idaho proposes to do that in Janucary.

HATFIELD PLEDGES HIS SUPPORT TO MERRIAM

SAN FRANCISCO, Sept. 8— A united Republican Party is now assured following the exchange of telegrams between Governor Frank F. Merriam and his late oppoonent in the primary, Lt. Gov. George J. Hatfield. The new alliance will go forward in the general campaign with a strong non-partisan support for men and womne of all parties on a non-partisan platform opposed to radicalism.

Hatfield tlegraphed Merriam:

"By a decisive choice the Republican Party has selected you as its standard-bearer against the Radical Socialist candidate of the Democratic Party. I congratulate you and pledge you my full suppor in the November election."

Merriam responded:

"This is to acknowledge your gracious telegram and generous pledge of support. Accept my sincere thanks. Your help and that of your friends and supporters will be appreciated and prove a most valuable asset in winning the November election Again I thank you."

GOVERNOR GETS $3000 TO AID IN OIL PROBE

SACRAMENTO, Sept. 8 —(UP)— Governor Frank F. Merriam late last Thursday announced that he had made $3,000 available to the state pension board for a public inquiry into the California tideland oil leasing scandal.

"I will release more if it is needed," Merriam said. "I want to see a complete investigation."

THE MAN AT THE KEYHOLE

by Operative WB

Top honors for originality in the late, unlamented primary election go to the Equalization Board candidate who papered the state with 25,000 bags bearing he words—"It's in the bag!" And it was—his picture and his platform.

Howard Hughes, Hollywood insiders report, is still up in the air over l'affaire Corrigan. Hughes, so they say, had planned a cinema gigantic with an around-the-world climax, and had figured on his flight as a publicity build-up for the screen epic. Then along came Corrigan, and the flight's newspaper value crashed to zero. All of which goes to show you sometimes get farther by going the wrong way than by doing things up all nice and proper.

Inside reports have it that the Scottish parson who legalized the Windsor-Warfield international alliance may settle down in California. On the run since the Church of England voiced its outrage, the Rev. Jardine is now on tour via trailer in the Los Angeles area. If his evangelical mission succeeds, the Duke's parson will become the people's parson in some California community.

Though the average ballot doesn't have quite the photogenic profile of a young lady in a bathing suit, it may soen have to submit to just as much picture taking. Our spies report that every ballot will be preserved on film, if a plan now being considered is put into action. The photography, done by photostatic gadgets in the polling booths, will record the check-marks in permanent form—just in case. The cameras will mean fewer jobs for poll watchers, but think of the potential business for negative retouchers!

HILL - BILLY RADIO ARTIST GETS DEMO NOD FOR CONGRESS

LOS ANGELES, Sept. 8 —(UP)— Stuart Hamblen, who mixed hill-billy music with his campaign speeches, emerged from California's primary with a Democratic nomination for Congress.

Hamblen, a hill-billy musician who leads his own radio band, polled 12,396 votes in the 11th congressional race. Final returns showed his chief opponent, Dwight Stephenson, Glendale attorney, had 11,774 votes. The two were campaigning for the seat vacated by John Steven McGroarty.

Hamblen will pppose Carl Hinshaw, Pasadena real estate man, in the general election. Hinshaw was an easy victor in the Republican contest.

DEXTER EXPLAINS COMPLEX EDUCATION PROBLEM IN STATE

SACRAMENTO, Sept. 8 —(UP)— Serious school conditions have been brought about by the continued large influx of migrants from other states, it was emphasized by Dr. Walter F. Dexter, State Superintendent of Public Instruction.

Dr. Dexter listed Oklahoma. Arizona, Texas, Arkansas, Missouri, Kansas, Colorado, Nebraska, New Mexico, and Idaho as the principal states that have contributed to. the migratory labor problem. California counties most seriuosly affected are Madera, Kings, Kern, Tulare, Merced, and Stanislaus in the San Joaquin valley; Imperial, Sutter, Yuba and Butte in Sacramento valley.

"More than 221,000 refugees entered by automobile during a two and a half year period ending in 1937," said Dr. Dexter, "eighty-six per cent of the migrants from the drought states were families, only 14 per cent being single men. The consequences have been serious over-crowding of schools adoption of double sessions of half-ady length, reduction of salaries and shortening of school terms. The cost must be borne by state taxes or by increased local taxes on permanent residents."

The twin motored bombers had left San Diego the preceding Tuesday at 9:30 A. M. on an attempted non-stop flight to Panama, but strong headwinds off the Mexican coast forced them down 2000 south of the taking-off-place.

The flight was completed without further misadventure.

Politically Speaking

by John W. Dunlap
United Press Staff Correspondent

SACRAMENTO, Sept. 8 —(U.P)—Regardless of the primary election results, the state senate will present a revamped lineup when the speaker's gavel opens the fifty third session of the California legislature next January.

Voters wil choose 20 representatives from the even numbered districts. The remaining 20 senators are holdovers and are not required to run this year.

Strategically the most important of the two houses, the senate is popularly known as the "House of Lords" It is almost an axiom in state politics that most "liberal" legislation emanating from the Assembly or "Cave of the Winds" will be killed in the upper house.

Indeed, it is known that lobbyists concentrate their arguments and efforts against a measure in the Senate. The Assembly has 80 members and is unwieldy at best.

The topheavy Bourbon registration may displace some of the Republican veterans but it is hardly possible control will pass from the GOP to the Democrats.

Among the familiar figures who will be absent from the opening roll call will be:

Senator Culbert L. Olson of Los Angeles county. Starting his California career in politics as chairman of the Democratic state central committee in 1934, the silvery haired legislator is making his bid for the bigtime in a campaign for the governorship.

Senator Walter McGovern of San Francisco. McGovern, an able lawyer, never found the divious paths of legislative procedure to his liking and withdrew from competition. At the conclusion of last year's session he said he would be glad to get back home and "try a couple of nice clean murder cases."

Senator William F. Knowland of Alameda county. A competent, sincere public officer, Knowland also retired from this year's campaign. Both Knowland and McGovern are reported to have Congressional ambitions, however, and may announce for that contest in 1940.

Senator Sanborn Young of Santa Clara county, among the most conservative of the senate membership did not enter this year's contest. He is active in placing a labor relations initiative on the November ballot. The issue has developed bitter opposition and will proably be amnog the most controversial of the propositions. It defines and regulates picketing and defines strikes and lockouts in a manner displeasing to the raks of organized labo.r.

Senator Dan E. Williams, veteran legislator from Sonora, was automatically disqualified by establishing legal residence in Idaho for a time.

Death took Senator Karl P.Keough, removing the Senate's most colorful figure. Keough was never a deep student of public affairs, but he combined a keen insight into human nature with a native shrewdness to give his Eastern Sierra district adequate representation.

Keough was known as the "Chief" because his sole legislative issue was a bill to permit the sale of liquor to Indians, who comprised a good section of his votin strength.

He delighted in upsetting the decorum of the upper house. When a hot debate ensued over a resolution disapproving of President Roosevelt's plan to enlarge the Supreme Court, Keough summed up his case for the plan in this fashion:

"I don't know much about all this argument, but I do know if you fellows want to go down and get your mail at the post office, you better vote for this resolution."

Senator Andrew Shottky of Merced is another member to join the ranks of the non-combatants after several sessions.

Among the incumbents seeking reelection will be the Merriam Administration wheelhorses, W. P. Rich of Marysville and Ralph E. Swing of San Bernadino.

Nevada Demo

Dr. John E. Worden, state health officer, seeks the Democratic senatorial nomination in Nevada's Sept. 6 primary against incumbent Pat McCarran and Albert Hilliard, Reno attorney. Dr. Worden calls himself "the New Deal physician," says he will support Roosevelt except when instructed otherwise by Nevada farm and labor groups.

Man Promises $1 A Minute In L. A. Race

LOS ANGELES, Sept. 8—(UP)—A candidate who frankly promised 365 days of sunshine every year, a pension of $30 every 30 minutes, entered the lists against Mayor Frank Shaw, facing recall in an election September 16.

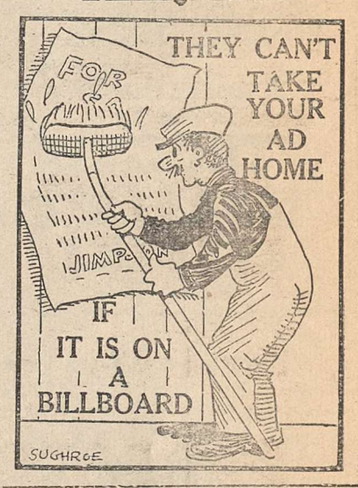

Colonel B. Tarkington Dowden, an express service broker, was the 19th person to secure a nominating petition to run for mayor.

"I feel that it is my duty as a Californian and a citizen of Los Angeles to put my name before the pee-pul and by doing so lend an element of respectability to the ballot," Dowden declared.

"If elected, I guarantee the sun will shine 365 days in every year. I promise 30 free meals at a downtown cafeteria where one only has to use their right eyes for security, and to the pension minded, I promise $30 every 30 minutes."

"Who knows? Perhaps I, too, will receive a couple of threats against my life. Perhaps some sterling citizen will slip me $50,000 to stayin the race, or out of it. Anything can happen."..

"And so with an eye to the future an dan ear to the ground (which is an embarrassing position to be caught in), I promise you folks something new in political campaigns."
